<sup>1</sup>For the reason explained in the Cautionary Statement at p.31 above, the mere number of opinions attributable to particular courts or judges for a single year may not be significant in estimating judicial output.

<sup>2</sup>Generally, over a sufficient period of time, such as two years or more, these, together with those in column (e), reliably indicate the output of the Court or Judge in question.

<sup>3</sup>Ordinarily these involve substantially less work than an original opinion of the Court, but occasionally the contrary is true.

<sup>4</sup>Ordinarily these are comparable to an original opinion of the Court.
