

Notes about Data for Statutory County Courts for FY 2015

In 2015, 89 of the state's 254 counties had at least one county court at law in operation. There was also one court that served 3 counties. Assuming one report for each county for each month, 1,100 reports were possible. (The court in Jim Wells County was created in January, so did not submit reports for September through December.)

At the time of publication, there was a 98.9 percent reporting rate for the fiscal year.
